

Don't Let 'Em Get Yer Goat

(By Sean McCollough)

Chorus:

Don't let 'em get yer goat. Don't let 'em bring you down
Don't let 'em under your skin. Don't let 'em make you frown
Cause it doesn't really matter, what other people think
As long as you like you and the things you do
Don't even let 'em make you blink

I heard Johnny say to Jimmy that Sally said to Sue
That Tammy said to Tommy that she doesn't like you
Well it may be false, or it may be true
But whatever it may be, let me tell you what to do

Chorus

I saw Freddie whisper something to little Beth McGrath
Then they both looked at you, and they started to laugh
It made you feel kinda small. It made you wanna disappear
But I got something to tell you that you really ought to hear

Chorus

Well I heard about the bully. He was pushin' you around
He was bein' kinda mean, bringing everybody down
I guess you better tell a grown-up before he takes it too far
And I hope you will remember, we love you just for who you are

Chorus
